#### TOPICS OF THE DAY.

San Francisco people are asking for a subsidy for a steamship line from that port to Australia for the reason that our exports to that country have increased from \$6,500,000 to \$11,500,000 in two

SPONGE growing is beginning to loom ap as an industry on points of the Con-acctiout coast. It has been found that young sponges transplanted from Florida waters flourish rapidly in Long Island Sound.

Kirre flying has become such a mania at Raritan, Ill., that prominent citizens sugage in it. One kite is seven feet long and has been sent over 2,000 feet into the air. Three men and a windtass are required to draw it back to

THE bill in the Massachusett's Legislature providing that minors and women shall not work in mercantile establishments more that ten hours a day has been killed by an amendment providing that a woman over twenty-one years of age can contract out of it.

SUICIDES by monarchs have been rare in modern times. The most recent case was that of Abdul Aziz, Sultan of Turkey, who opened a vein in his arm in 1876. In 1868, Theodore, Emperor of Abvesinia, is said to have shot himself. In 1820 the King of Hayti escaped capture by suicide. Charles VII. of France, starved himself to death.

THE contract for constructing and putting in place the great dome for the Lick Observatory at Mount Hamilton has been awarded to a San Francisco firm at \$56,850. It is to be of steel, seventy-six feet in diameter, and will weigh 127 tons when completed. The contract for mounting the telescope has been given to a Cleveland firm for \$42,-

New York has secured a rhinocero for Central Park. He is called Bomby, and stands five and one-half feet high and is eleven and one-half feet long and weighs over two tons. He is believed to be between ten and twelve years old, and was captured while young near the mouth of the Ganges. Bomby is the largest rhinoceros ever in America, and cost the city \$5,000.

SLEEPING CARS with bath rooms are the latest improvements. Now tired and dusty travelers who cross the continent will be able for tifty cents to take a thorough wash at any time during the journey. These cars also have buffets, moking rooms and all other latest sleeping car improvements which tend to make long distance journeys comfortable and enjoyable.

THE Boston Record gives us the following: "A Woodhull (Ill.) barber shop was changed to a saloon. An absent-minded preacher who had been one of the barber's regular customers dropped in, and seeing a crowd ahead of him, sat down to wait his turn. The men at the bar, thinking the preacher had come to learn their names, fled in dismay. Then the good man discovared his error and quickly left."

THE Court of Chancery of New sey has just rendered an opinion holding that a witness in that State who swears by the Bible is not bound to kiss the book. A woman when sworn had laid her hand on the Bible, but refused to kiss it. The only reason she gave for the refusal was that she had never kissed the book. She was allowed by the Master to testify, but a motion was subsequently made to strike out her testimony. Hence this decision.

THE general election, which will soon occur throughout the United Kingdom. is likely to afford a very thorough test of one of Mr. Gladstone's cherished opinions. The Liberal chieftain has resatedly proclaimed his conviction that the masses are invariably right as against what have hitherto been called "the governing classes," and he has ointed, in confirmation of his view, to the history of the great reforms which have steadily widened the boundaries of British freedom.

TROUBLE appears to be brewing for Spain and its baby King. The Republithe Carlists in another are said to be preparing independently to attempt to everthrow the Government. As the Queen regent is unpopular, the King, but a baby, republican sentiment strong in the country districts, and the Carlist influence and traditions powerful in the mountain provinces of the Basque ntry, stirring times may occur in Spain before the summer is over.

THE project to use the water power of Niagara at Lockport, N. Y., is taking shape, a company formed for the purpose having begun preliminary operations. It is estimated that 300,000 ree power can be made available at Lockport if so much should be needed. Lake Erie and the other great lakes would be the mill pond for this great water power, Niagara river the head To artificial dam is needed, and the supof water and, therefore, of power

The onion grub made as appearance last year for the first two and has returned in greatly ines of Orange County, New York.

## XLIXTH CONGRESS.

HOUSE.—Soon after the reading of the oursel in the House this morning, Congress House.—Soon after the reading of the journal is the House this morning, Congressman Anderson again asked for unanimous consent to take up and pass the bill providing for an appropriation of \$120,000 for the erection of a public building at Dayton, O. Before the bill had been read through Mr. Beach, of New York, arose and said that the bill was probably the most meritorious one of the character on the calendar, but he objected to its consideration for the reason that if Congress kept on there would be no money left in the Treasury. The House then resumed consideration of the Naval Appropriation bill, and disposed of it a few minutes before three o'clock. Immediately upon the passage of the Naval bill General Anderson noticed that Beach, "the objector," was not in his seat, so he at once renewed the motion to take up the Dayton bill. This time he was successful, and the bill passed without any further opposition. It has aiready passed the Senate, and will become a law just as soon as the President gives it his approval, which will be early next week.

Washington, June 21.—Senate.—The credentials of the re-election of Senator Aldrich, of Rhode Island, were presented. A bill was passed granting Dearborn Park to the city of Chicago for the use and benefit of public institutions. A resolution was agreed to calling on the Secretary of the interior for information regarding the cancellation of land entries for fraud from and during the year 1833. The Senate took up the bill to grant right of way through Yellowstone Park to the Chunabar and Clarks Forks Railroad Company. It was laid aside for the army appropriation bill, which comes from the House with a message of non-concurrence in the Senate amendments. A conference committee was appointed. The diplomatic appropriation bill was also received with a message of non-concurrence in the Senate amendments. A conference appropriation bill would be called up on Wednesday. The bill to repeal the preemption timber culture and desert lands was then taken up. Mr. Blair submitted an amendment providing that not more than six hundred and forty acres of desert lands was then taken up. Washington, June 22.—Senate.—A bill to place Commander Quackenbush on the retired list of the navy was passed by a vote of 22 to 17, after vigorous opposition by Messra. Ingalls and Logan, who objected because the officer had been dismissed for drunkenness. Mr. Hawley called up his motion to reconsider the vote on Beck's bill prohibiting members of Congress from accepting retainers from roads aided by the Government. Debate continued until 2 o'clock. The discussion on the repeal of the timber culture, preemption land and desert land was continued until 5 o'clock, when the Senate adjourned.

tinued until 5 o'clock, when the senate ac-journed.

HOUSE.—Nine vetoes of private pension bills were received. After reports from commit-tees Mr. Morrison announced that he would not eall up the tariff bill to-day. He called up a proposed change in the rules to allow a clause providing for an income tax to be added to pension bills. This was debated un-til 5 o'clock, when the House adjourned.

WASHINGTON, June 23.—SENATE.—A bill was assed providing for the payment of expense of steamboat inspectors in accordance with the recommendation of the President in his or steamonat inspectors in accordance with the recommendation of the President in his message, written after signing the Dingley ship bill, and resolutions were submitted and referred, directing the Judiciary Committee to report a bill for the repeal of all laws declared unconstitutional by the U. S. supreme court. and providing for a digest or index of the statutes of the United States, including those of the present Congress. The Hawley motion was then taken up to reconsider the vote on the bill prohibiting members of Congress from acting as attorneys of railroads aided by the Government. Mr. Beck opposed reconsideration, and speeches were made by Evarts, Edmunds, Mitchell and Call in favor. The motion to reconsider was then carried-yeas, 31, nays, 21. Mr. Hawley then moved tolerer the bill to the Judiciary Committee, which was agreed to—30 to 12. The bill was read, and Mr. Edmunds promised to report it back within six days. Several veto messages were received and read. The bill to repeal the pre-emption and timber culture laws were placed before the Senate, and it was agreed that a vote should be taken tomorrow. At 5 p. m. the Senate went into executive session, and at 6 p. m., adjourned.

House.—Conferees were appointed on the consular and diplomatic appropriation bill. Mr. Morrison called up the report of the Committee on Rules, upon which the debate occurred yesterday. Mr. Reed raised the question of consideration. On the standing vote the House rerused to consider the report, but on a yea and nay vote this determination was changed, and then, on a motion to reconsider, and then to adjourn the Republicans refrained from votius. The Bilbustering continued throughout the day, with numerous roll-calls and calls of the House. At 4:20 proceedings under the call were dispensed with: the motion to adjourn to Saturday was voted down, and another roll-call consumed the time up to 5 o'clock, when the House adjourned.

#### ENGLAND CRIES HALT.

Position of Canada on the Fisheries

OTTAWA, ONT., June 22.—The latest reve-lation in the fishery question shows that the Imperial Government has intimated by cable, through Sir Charles Luppert, that under no circumstances must the present position of Canada on the fisheries question be maintained. The British Government had expressed themselves as determined not only not to back Canada up, but to not only not to back Canada up, but to take such measures as would stop all such proceedings in the future. It is this cable-gram, received by Sir John McDonald, which has brought about the concessions which the Dominion Government proposes now to make. Throughout there has evi-dently been a piece of maladministration on the part of the Dominion Government, they not knowing above they stord There they not knowing where they stood. They have received a repriment from the British Government now, and will, if they are wise, be more careful in the future.

The French Expulsion Bill. Paris, June 22 .- In the debate on the expulsion bill in the Senate to-day, Premier De Freycinet said that his Government would not tolerate another Government in France, and would take the full respon-sibility for the expulsion of the Princes. He declared that order was being maintained throughout France, even at Decazeville, where a recurrence of the recent disor-ders had been prevented. That was not the case in Belgium or in Great Britain. In conclusion, he deprecated the confisca-tion of the property of the Princes, insisted that the common law would not apply to the Princes, and urged the necessity of a Panubless. Republican union as of supreme interest to the Republic. Finally a secret ballot was taken, and the bill, as it came from the Chamber of Deputies, was adopted by a vote of 141 to 107. The announcement of the result was received with great applause by the members of the Left.

In a Muddle. WASHINGTON, June 22.—The tariff ques tion is in quite a muddle. Mr. Morrison to-day wisely decided not to call up his bill, preferring rather to await the recommendation of the committee appointed at last night's conference as to what should be done. Mr. Randall still maintains he has a tariff bill which will reduce the revenues \$12,000,000 or \$15,000,000, and which aims at the same time to reduce many internal taxes and abolish not a few. Just what will now be the outcome of the tariff agitation can not be predicted. There is a good deal of bad blood within the Demo-cratic lines. If the session were not so near an end the tariff would force itself to the front, and it may yet as it is.

## The Bavarians Murmuring.

MUNICH, June 21-Murmurs are heard on all sides regarding the treatment of the late King. The people ask why his body was not interred in the grave of his fathers in the Theatiner Church, instead of being placed in a vault containing the bodies of distant relatives, and in which a member of the royal family was never before buried. The official reason given for this course is that the royal vault is already overfilled, but the humble classes believe that it is because the King committed suicide.

#### After a Filibuster.

MOBILE, ALA., June 22.—The revenue custer Forward was ordered to-day by telegraph from the department to proceed with all speed to Mississippi Sound, there to cruise and intercept a schooner loaded with men and arms bound on a filibustering expedition to Cuba. From the locality se lected it is believed the expedition is fitting out in New Orleans and seeking to depart via Lake Pontchartrain. The Forward sailed this afternoon at five o'clock, with an extra supply of coal in her bunkers.

DETROIT, MICH., June 22.-A dispatch from Calumet, in the Upper Peninsula, sit-uated at the famous Calumet and Hecla copper mine, the richest in the world, says that the deepest shaft in the Allonez mine has struck the Calumet conglomerate. The vein where the strike was made was fully up to the average richness of the Calumet Hecla ore, and no doubt is expressed that a body of the same conglomerate un-derlies the Allonez property as has made the Calumet and Hecla the richest coppe nine in the world.

Disastrous Floods in Europe. VIENNA, June 22.-Floods are increasing in violence and attent in Silesia, Bohemia and Hungary. Bridges, houses, trees, rail-road tracks and crops have been washed away and several lives are reported los The damage to property can not now be estimated, but it will be enormous. Rains continue to fall heavily and the waters are rising. The inhabitants of the fi regions are moving to higher ground as rapidly as possible. Many are suffering from hunger and exposure.

He was accompanied by a number of friends to the railway station, where a large concourse of people had assembled. No demonstration, however, was attempted. Prince Victor, at a reception before starting for Brussels, said: "Do not expect a vain protest from me. A people sometimes takes it upon itself to open its doors to an exile. I remain a representative of the Empire as the Napoleons constituted it. I favor firm authority, equaltive of the Empire as the Napoleons con-stituted it. I favor firm authority, equal-ity of all citizens and respect for all creeds. Be assured that whatever call duty may make I shall not be found wanting in the fulfillment of what I owe to the Democracy and to my name. Au revoir." Lake Shore Swite Strike at Ohi

A Sharp Move on the Officials' Pa ble Expected All Along the Line

CRICAGO, June 25.—Late this afternoon the Lake Shore officials accord their first triumph since the beginning of the strike by moving a loaded freight train out of the the Lake Shore officials scored their first triumph since the beginning of the strike, by moving a loaded freight train out of the city. Earlier efforts were frustrated by the strikers and their sympathetic fellowers, and the situation was exceedingly squally. Fifty special policemen arrived at the town of Lake Police Station at nine o'clock this morning with Superintendent Amsden. General Freight Agent Blodgett arrived at Forty-third street about the same time with twenty-five switchmen from Toledo and other points. The strikers also began to gather in apparently well-disciplined ranks, with a determination to prevent, if possible, any movement of freight trains. An engine moved out of the round-house and was attached to a train of ten freight care which started up the track. It had not proceeded far when the strikers "threw" the switch and two cars were derailed. At four o'clock fity police, accompanied by thirty new switchmen appeared on the scene. An engine was promptly run out from the round house, but the strikers had blocked the way with a box-car. The police charged, knocking men right and left with their clubs. Several arrests were made, the crowd gave way, and a freight train which had been abandoned in the forenoon was coupled to the engine and ran north to. Thirty-eighth street. Here it was switched onto the main track and, guarded by over one hundred police, pulled safely out of the city. To-morrow curious things are looked for, and it is expected the strike will extend the whole length of the road.

#### NO PAYNE INVESTIGATION

Will be Held, Says a Majority of the Sep WASHINGTON, June 25.—The Senate Com mittee on Privileges and Elections held a short meeting this morning and voted to short meeting this morning and voted to report adversely to any investigation of the charges of bribery in connection with the election of Senator Payne. The majority of the committee think there is not sufficient evidence to show that money was used in the election, and are very confident that the result was not in any way affected by improper means. There will be a minority report in favor of an investigation. It is said that only Senators Hoar and Frye will sign the minority report, and that Senators Teller, Evarts, Logan, Saulsbury, Vance, Pugh and Eustis will sign the majority report.

This is against the organization's rules, and Thompson was taken to the village fountain in the basin of which the water is always two or three feet deep. Notwithstanding his struggles he was thrown in, and when he crawled out, he was thrown in again. He would have been thrown back a third time had he not promised nover to transgress the rules of the vigilants again. This is Thompson's second experience at the hands of the vigilants.

#### An Important Discovery.

ANN ARBOR, MICH., June 25 .- Dr. V. C. Vaughn, in examining a specimen of the ice-cream which recently poisoned a num-ber of persons at Newton, has made the disber of persons at Newton, has made the discovery that tyrotoxicon, the active element in poisonous cheese which he discovered some time since, was also present in the ice-cream, and was the cause of the sickness. This proves that tyrotoxicon is due to decomposition of milk, and may be developed in any milk which is kept in an impure atmosphere or unclean vessel. The germ seems to multiply very rapidly, and a small amount of tainted milk will poison a whole can. It is Dr. Vaughn's theory that tyrotoxicon has much to do with cholera infantum, the symptoms of which are similar to the symptoms of cheese poisoning.

A Law Unless Vetood.

Washington, June 25.—The Fits John Porter bill passed the Senate by a vote of veas 30, nays 17.

—A mining engineer wants mining companies to be compelled by law to put down bore holes, from the surface of the ground, at greater or less intervals over the entire course of mines. The holes would not be very expensive to put down, and could be sunk with any prospecting well or oil rig. They should be large enough to contain a tube two or three inches in diameter, with good valves at each end. This plan, he thinks, would do away with part of the risk that miners undergo from being imprisoned by a cave-in.—Philadelphia Fress.

The celebrated McArthur will case was decided by Judge Jackson in the United States Circuit Court, Cincinnati, a few days ago. Litigation has been in progress since 1875. General Duncan McArthur left by will a large amount of land for partition among his grandchildren when the youngest should become of age. The children caused the will to be set aside, and much of the land was sold to third parties. Six of the twenty-four grandchildren joined in the proceedings. The eighteen other grandchildren subsequently sued for their inheritance under the will, and it is in their favor that the case is now decided.
